## **Dension Audio Systems Ltd and PT Tronix Limited decide to bundle activities**

*Today coach travel is greener than car travel, a lot less stressful and with modern technology passengers can relax; no driving, just enjoyment.*

*The Voyager™ digital entertainment system has brought coach travel into the 21st century.*

**Shanghai, PR China, May 06, 2010** — PT Tronix Limited and Dension Audio Systems Kft. today announced that they have concluded the integration of their public transport activities to provide an increased level of quality and service to OEMs in the public transport sector world-wide.

"C&C Electronics and Dension founded PT Tronix limited in 2008 to develop, based on our respective know-how a new generation of coach entertainment systems. From the very start we co-operated very closely to take advantage of complementary skills. Now that we completed the innovation phase I feel that a full integrating of activities in Dension's corporate infrastructure will enhance the quality of our products and deliver higher response to customer demands" commented Coco Ciocan PT Tronix's President and Chief Executive Officer.

"From the very start of PT Tronix Dension has supported the innovative approach proposed by C&C Electronic for the public transport market. Today we are very glad to see that PT Tronix' products are enjoying market interest from all over the world and are pleased to integrate our activities to better serve this emerging market" commented Attila Szijj - Chief Executive Officer Dension Audio Systems Kft.

**Dension Audio Systems Kft.** - Founded in 2001 to manufacture car audio products is now one of the most successful manufacturers of in-vehicle integration modules and interfaces for digital audio and video electronics products such as iPod, iPhone, Wi-Fi, etc. The company's HQ is in Budapest Hungary with production facilities in Pásztó. With 150 employees and an annual turnover of €30 mil the company is a key supplier to leading carmakers and the EU aftermarket

**PT Tronix Limited** is a UK based company specializing in the design and worldwide sale of digital infotainment solutions for the public transport sector.
